A blank field (default) means there is no filtering on the corresponding column. Two wild card characters can be used: * matches zero or more characters, and ? matches exactly one character. For example, low* matches low and lower, while lo? matches low but not lower. Text is not case sensitive: i.e. low matches both low and LOW.

FIG. 8

The graph displays three distinct data series over a time interval from 13:24 to 13:32. The top series, plotted against a y-axis from 0 to 100, shows a curve labeled '3' that peaks at approximately 100 around 13:29. The middle series, plotted against a y-axis from 0 to 25, is a step function labeled '402, 2' that jumps from 0 to 25 at approximately 13:28. The bottom series, plotted against a y-axis from -50 to -350, shows a shaded region labeled 'I-MAN' with specific points marked as '410', '412', and '414', and a label 'MAN' at the far right. The x-axis is marked with time in minutes and seconds.
